

RESET GOOGLE CHROME

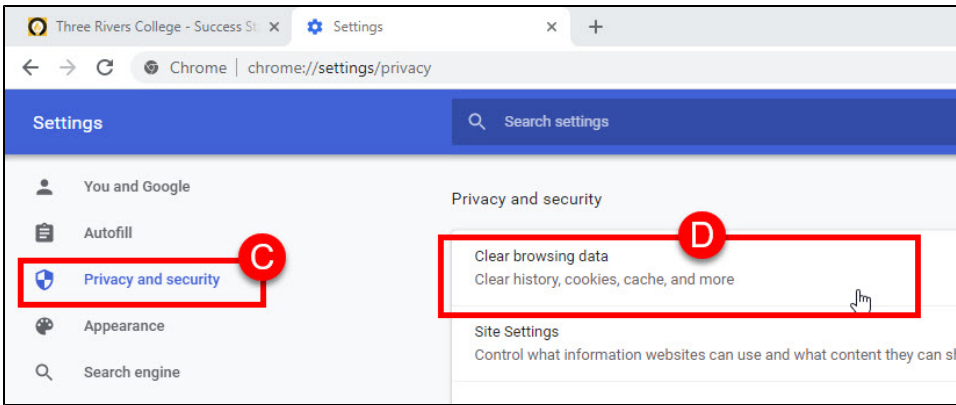

Current as of 04/03/20 for Google Chrome 80

To clear the cache, cookies and history in Google Chrome:

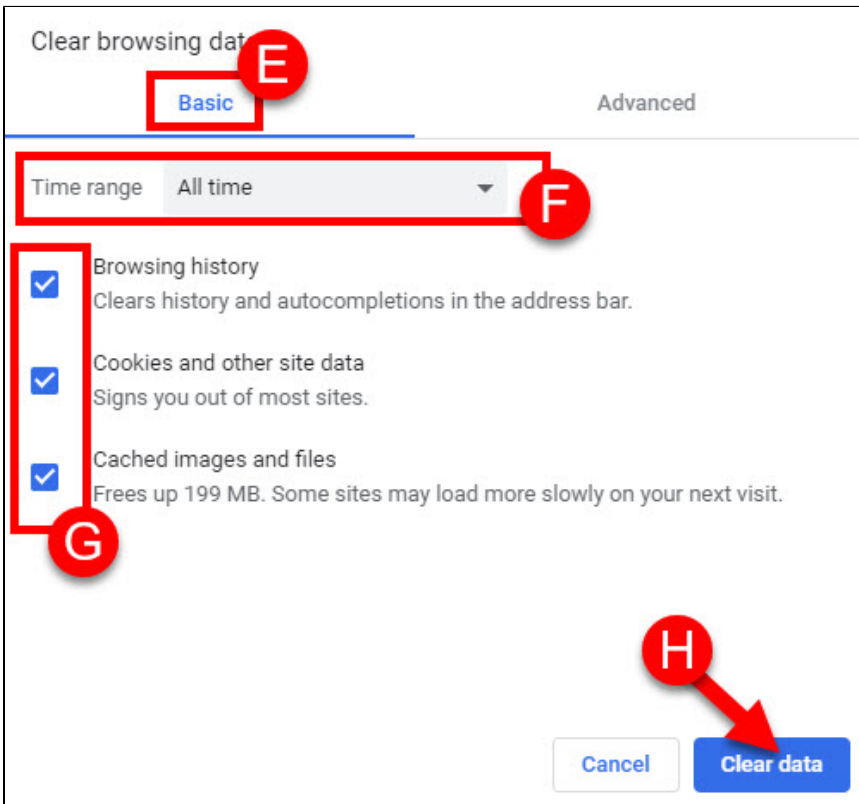

1. Click the **Three Dots (Customize and control Google Chrome menu button - Figure A)** in the top right corner. Click **Settings (Figure B)** on the menu that comes up.

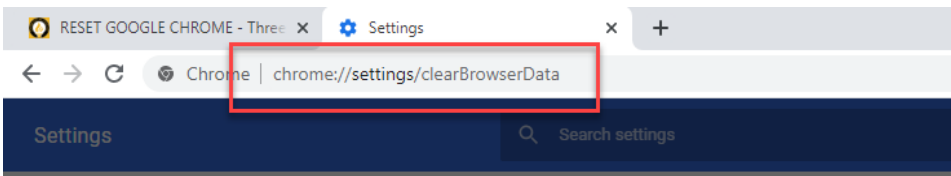

2. Click **Privacy and security (Figure C)**, then click **Clear Browsing Data (Figure D)**

3. In the window that appears. Make sure **Basic** is Selected (**Figure E**), Time range is set to **All time** (**Figure F**), and **all three items are selected** (**Figure G**). Click **Clear data** (**Figure H**).

4. You have now cleared your Cache and Cookies for Chrome. You can also navigate in Chrome directly to this address `chrome://settings/clearBrowserData` and skip to step 3
